

## Picture This: More *Starships*

*Starships of the Galaxy* has it all: construction guidelines, ship modification rules, maps, prestige classes, mass combat rules, and Gamemaster characters. Oh, yes, and ships - lots of ships. A few weeks back, we brought you the first of two online art galleries showcasing images from the book. Now, art director Sean Glenn has provided us with a second helping of pictures. Pick out a new ship for your heroes to fly (or fight!) or just click and enjoy the cool images by artist John Gallagher.
